New PAN-Based Login Facility on NSDL SPEED-e

Simplified login is now available!

NSDL has enhanced the NSDL SPEED-e Mobile Application from 6 September 2026 to enable clients to log in using their PAN.

You can now use your PAN to retrieve your registered User ID(s) and access the functionalities available in the NSDL SPEED-e Mobile Application without having to remember your User ID(s).

How it works:

1. Open the NSDL SPEED-e Mobile Application and enter your PAN at the start of the login process.
2. If a valid demat account is available in the NSDL Depository system, an OTP will be sent to the registered email address and mobile number available in your latest demat account.
3. Once you enter the correct OTP, the application will display the list of registered User ID(s) available.
4. Select the required User ID and log in using your MPIN and OTP.
5. After login, you can access the unified investor application across all your demat accounts at PAN level.

📱 **Please note:**

- This facility is available only on the NSDL SPEED-e Mobile Application (Version 4.6.0) for Android and iOS.
- Please update the NSDL SPEED-e Mobile Application to Version 4.6.0 to use this facility.
- The enhanced login process is not implemented for the SPEED-e and IDeAS web portals. The existing login process for these web portals will continue to apply.
- Please ensure that your registered mobile number and email address are updated in your demat account records to receive OTPs.

For further details, please refer to NSDL Circular No. NSDL/POLICY/2026/0131 dated September 08, 2026.

Warm Regards,
NJ India Invest Private Limited
